

The Design Net

Our UK based workshops specialise in creating custom furniture that fits your space perfectly. Whether you need a piece that matches an existing colour or fits into a specific alcove, TDN custom-made furniture is the perfect answer for bespoke design solutions.

Traditional values, craftsmanship and skills developed over many years form the backbone of the service we provide, from drawing to completion we make sure your piece is exactly as you imagined.

Wood, fabric, metal, stone, glass and marble are creatively blended and honed by craftsmen to create bespoke solutions that are beautiful, timeless and long lasting.
